Below are the current training USA Softball of Indiana opportunities for 2018, further details will be added as they become available. Any USA Softball of Indiana umpire can attend any training opportunity for no additional charge provided that they preregister for the event and have paid their 2018 registration fees (registration fees can be paid at the clinics and / or schools). Requirements for working State and National Championships have not changed, an umpire has to have attended a school in the past 3 years and must attend a clinic in the years they do not attend a school, complete the current umpire test and be in good standing with the association.
